Präzisions-Innenauszieher

- Zum Ausziehen extrem dicht anliegender Kugellager, Lageraußenringe, Buchsen und Radial-Wellendichtringen
- Viele Greifabstufungen für alle Spannbereiche
- Extra große Greifkanten für perfekten Sitz und sicheres Ausziehen
- Mechanische Spindel mit gewalztem Gewinde
- Anwendung sowohl mit Gleithammer als auch mit Gegenstütze

Precision internal extractors

- For extremely tight-fitting ball bearings, bearing races, bushings and radial shaft seals
- Many grip grades for all clamping ranges
- Extra wide grip-edges for perfect fit and safe extracting
- Mechanical spindle with milled thread
- Can be used with either slide hammers or counter-support devices
